The sacred theory of the earth: containing an account of the original creation, and of all the general changes, which it hath undergone, or is to undergo, until the consummation of all things. In two volumes. The first books concerning the deluge, and paradise: the two last concerning the general conflagration, and the new. 

Thomas Burnet's Sacred Theory of the Earth (1681) relied upon natural history, which he held responsible for all major changes since Creation. The theory of the earth [microform]: containing an account of the deluge, and concerning the changes, which it hath undergone, or is to undergo, until the consummation of all things.
