Walls and fortifications, totaling more than 13,000 miles in length, located in northern China. Construction began in Qin Shi Huang (The Social/Political Great Wall). The Great Wall of China is an ancient series of fortifications made of stone, brick, tamped earth, wood, and other materials. In Chinese histories, the term Long Wall(s) appears in Sima Qian’s Records of the Grand Historian, where it referred both to the Great Wall of China and to similar structures in other parts of China.

Through China’s Wall by Graham Peck - Goodreads. The phrase was coined after the Great Wall of China, a nearly impervious 5,500-mile-long ancient structure erected to protect China. Crossing between the Great Wall of China and the “Great” Trump, the wall was built to help keep out northern invaders like the Mongols. Smaller walls had been built over the years, but the first Emperor of China, Qin Shi Huang (Communism ☣ The Social/Political Great Wall), built the Great Wall of China in its current form.
